Reimagine new possibilities and rediscover business offline

Techtextil India's 9th expo will open up its doors to leading players in the domestic and international market in 2023 on a grander scale! With a renewed platform filled with umpteen opportunities to display new innovations and interact with more decision makers, the forthcoming edition will help you achieve your business goals and more!

- Addition of new product categories: filtration and masterbatches

- Introduction of composites and its application areas on the show floor

- A chance to resume business interactions with international visitors at the India edition

- Knowledge sharing programmes focused on sustainability for the technical textile industry

The Indian technical textile market is valued at USD 19 billion. Grab this opportunity and exhibit at Techtextil India

1

The government has launched a dedicated US\$ 1.44 billion production-linked incentive scheme with a special focus on 40 man-made-fibre (MMF) garments, 14 MMF-based fabrics and 10 technical textile segments.

2

92 technical textile items have been made mandatory for use by government organisations, including agriculture, highways, railways, water resources and medical applications.

3

India aims to increase its exports by five times to reach USD 10 billion over the next three years.

The last edition proved its business value

The industry's most commerce-orientated trade fair generated high quality leads and drove focused conversations for the entire technical textiles, nonwovens and composites fraternity by resuming face to face business amidst an uncertain pandemic. In fact the 2021 edition even maintained its pre-pandemic standards by delivering the same visitor numbers and satisfaction levels. Further adding value to the last edition, international exhibitors were back on the Indian show floor!

Positive growth even
amidst uncertainties

3,770

peers.

Exhibitors share their reviews

“ We have met potential customers from the PPE, nonwoven and textile engineering applications. Techtextil India is a good platform to meet customers and most of them whom we have met here are investing a lot in India. We would like to participate in the next edition with a bigger booth. ”

Marc Ramlot
Business Head (ATTD)
Alok Masterbatches Pvt Ltd

“ We have had quality buyer interactions that go beyond just machinery talk and how we can support our customers in their growing demand. We met segments like geotextiles reinforcements, the wind industry which is growing in India and road reinforcements which is under the Government of India. We will definitely exhibit in another edition. ”

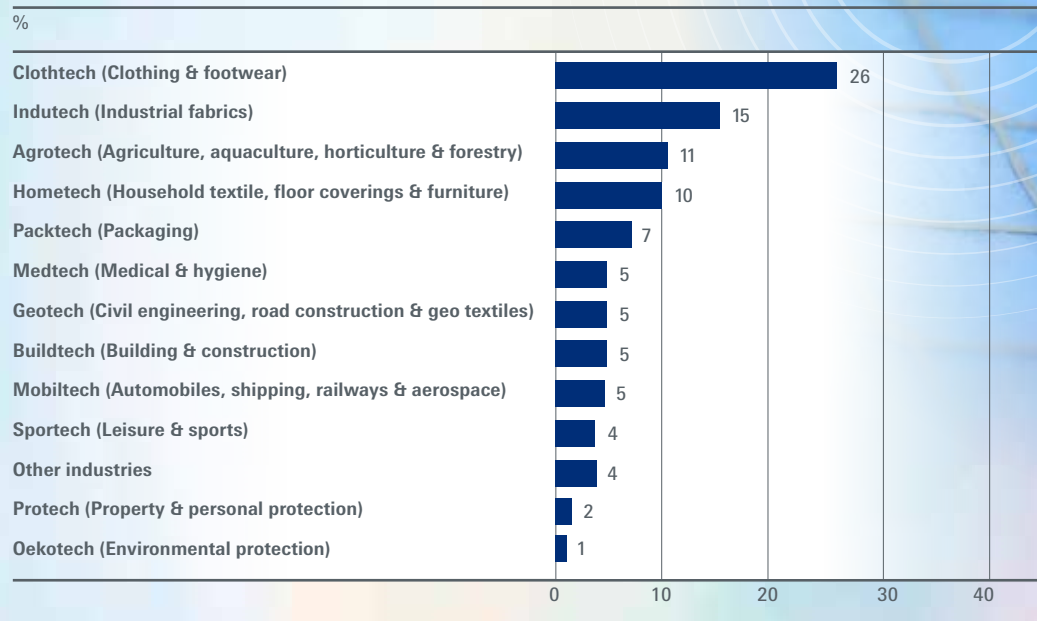

Erik Junghans
Regional Sales Manager
Karl Mayer Technische Textilien
GmbH

“ The brand Techtextil is amongst the best, be it the Frankfurt or the India edition. At the show we see a lot of people coming to discuss more about technical textiles. ATE and Karl Mayer will participate in the next edition where we can enhance our business through the Techtextil India platform. ”

Navin Agrawal
Vice President (Textile
Engineering – Fabric Forming)
ATE Enterprises Pvt Ltd

Exhibitors met buyers from these key segments at the last edition
