

# POST SHOW REPORT 2021

## techtexsil

INDIA Hybrid Expo

## Beyond innovation

### Show Profile

The maiden hybrid of Techtexsil India succeeded in uniting businesses from the 12 application areas of technical textiles for the very first time after lockdown.

From providing an excellent B2B sourcing and networking platform to organising the Digital Symposium, Techtexsil India 2021 provided exemplary opportunities to businesses under technical textile to expand their supplier networks, meet 'who's who' of the industry and gain invaluable insights on the future trends and scope of technical textiles in India.

## Industry speaks

**Shri Ajit Chavan**

Secretary - Textiles Committee,  
Ministry of Textiles, Government of India

The government of India's policies are completely catered towards the growth of technical textiles. The PLI scheme will be a major fillip in manufacturing of technical textiles and the textile parks will provide integrated linkages with the technical textile value chain. We have a target of INR 2 Lakh Crore in the country and the Indian industry is geared up to achieve that market potential. As a country, we have a great lot of scope in agrotech and medtech, while we have always been at the forefront of packtech, geotech and other high-technology areas.

**Mr Pramod Khosla**

Director,  
Khosla Profil Pvt Ltd

Despite the unprecedented situation created by pandemic, Techtextil India 2021 has seen a tremendous response this year from the visitors. This goes to show the immense interest and trust that industries and people have in the technical textiles sector as well as in Techtextil India

**Mrs Marja Einig**

Deputy Consul General,  
German Consulate General Mumbai

Messe Frankfurt India has made it happen! This the first time after the pandemic that we are hosting a German pavillion in India. And there is a fantastic display of specialised machinery for various technical textile products which ranges from alternative energy, to masks, to textiles, to sports shoes. It is incredible what we can achieve with a well-equipped production line and that is one of the focal points of Techtextil India and for the German companies participating here.

**Mr Robin Kapoor**

CEO & MD,  
PARK Nonwoven

It was really good to be back on this showfloor after a long time. This year we have showcased high-efficiency media for air and liquid filtration. Being back at Techtextil India, we have received response far beyond what we had expected throughout the three-days and we are looking forward to the next exhibition in 2023

**Mr Abhijit Kulkarni**

President – Textile Engineering Group,  
ATE India

"It was the first and best physical show also on hybrid mode filled with enthusiastic buyers and customers. Several of our leading textile customers, consultants and partners visited our stall for technical discussions and shared their future expansion plans. It was a very good event for networking, discussing new solutions for the textile industry and showing the positive trend of the textile industry in India"
