

WORLD OF COMPOSITES

@Techtextil India

25 – 27 November 2021
Bombay Exhibition Center, Mumbai

Synergies that will create deeper impact

Making India the world's next super power has multiple pre-requisites. One of these calls for usage of viable cost effective options that will stand the test of time. That's why composites, known for their advantage of blending a number of properties not usually found together in a single material, has been a popular choice in recent times.

Driven by the "Make in India" initiative, the composite market in India is valued as a \$330 million market with a potential of growing at a CAGR of 25% by 2022. Citing this potential and an imperative need to support companies in a growing market, World of Composites will hold its next edition in 2021.

Gain leverage to a ready network

Techtextil India 2021 is all set to attract business visitors from 12 application areas covering all industrial segments. With a strong product portfolio of technical textiles and nonwovens, composites will join this unique platform to help you represent your brand for infinite business opportunities.

This is why getting your brand to exhibit at World of Composites will give you access to an all-inclusive medium to gain direct contacts with big industry buyers.

Your brand's first mover advantage lies here

Exhibitor profile

- Raw materials for composites
- Reinforcing material and modifiers
- Glass fibre
- Carbon fibre reinforced plastic
- Basalt plastic
- Wood polymer composites
- Artificial stone, Metal composites
- Nano composites
- Reinforcing textiles
- Membrane systems
- Films & sheeting
- Textile reinforced plastics or concrete components, pipes & containers
- Semi-finished and intermediate products (prepreg)
- Composites based industrial products
- Joining systems intended for composites based products
- Equipments & technologies for composite material producing
- Composites material treatment tooling
- Measuring and testing equipment
- Certification and technical regulations
- CAD / CAM

Meet visitors from the following industries:

- Aerospace
- Automotive & land transportation
- Building & construction
- Defence
- Security & ballistics
- Electrical & electronics
- Industrial equipment
- Infrastructure & civil engineering
- Marine
- Medical & prosthetics
- Oil & gas
- Railway vehicles & infrastructure
- Renewable energy
- Sports leisure & recreation

World of Composites is the right business tool for you!

Show dates:

25 – 27 November 2021

Venue:

Hall 2, Bombay Exhibition Center, Mumbai

Participation details:

Raw space (min. 24 sqm) Ideal for your own designer stall. Exhibitors can fabricate and design their stand, subject to organiser's approval. Power supply is charged separately.

Shell scheme (min. 12 sqm) Shell scheme booth includes octonorm partitions, fascia board with company name, spot lights, one counter table, three chairs, one power socket (5 amp), one catalogue, exhibitor passes and one waste bin.
